

About Us"

Delivering Industrial Excellence Since 2007.

Since 2007, Red Dot Industrial Services has proudly served as a premier provider of high-quality industrial solutions across the KSA and Middle East for over a decade. Our dedicated team of highly qualified professionals is committed to delivering exceptional service, safety, and expertise to ensure your industrial operations run smoothly and efficiently. From maintenance services to comprehensive project management, we are your trusted partner for all your industrial needs, consistently exceeding expectations.

we focus on crafting dreams and building legacies that endure.

OUR SERVICES

- Hydro Jetting 10 K Psi To 40 K Psi.
- Bolt Torquing Tensioning Std Size 1.5 (150/300/600/900/1500/2500)
- Hydro Testing Of Flanges Size Std ½" To 56" All Class & Weld Testing.
- Hydro Testing, Plug Testing, Pipe Size Std ½" To 56 "all Types Of Services.
- Hydro Testing Of Cross-country Pipeline,
- Valve Testing And Tanks, Vessel, All Types Of (exam Water Air Lube Oil Nitrogen Etc.)
- Pipe Cold Cutting Std Size 2" To 48" Inch Cutting.
- Rentals Of Std Cs Blind Flanges Sizes From
- 1/2" □□ 36" (150/300/600/900/ 1500/2500 Class)
- Hydraulic Hoses & Fittings, High-pressure Hoses Supply.
- Fabrication Of Spools, Pipes & Structurals
- Nitrogen & Equipment Supply For -
- Pre-commissioning/purging.
- Chemical Cleaning Of Process Equipment
- [®] & Pipelines
- Fin Fan Cleaning
- Acid Pickinling & De Conitimnation.
- Valve Removal And Reinstallation, Re Instatment
- TCF Equipment Rentals.

Hydro Jetting

Red Dot Hydro Jetting: Powerful Cleaning, Streamlined Operations. 99

Hydro jetting is a powerful and efficient cleaning method that utilizes high-pressure water streams to remove stubborn build-up, debris, and blockages from pipes, tanks, and various industrial equipment. This eco-friendly technique eliminates the need for harsh chemicals and minimizes downtime.

Bolt Torquing:

Ensuring Strength & Security.

VISION كالياقية كالمحكونة 30 المراحكة العربية الستوودية кільором об saudi arabia

At RED DOT, we provide a total solution for all your bolting needs, leveraging cutting-edge technology to deliver the most reliable and efficient service possible. Our specialist team offers complete project management, handling everything from designing tightening procedures and recommending the right equipment to on-site installation, tightening, and post-job reporting. Our highly skilled technicians, equipped with the industry's safest and most advanced hydraulic torque equipment, utilize their in-depth knowledge and best practices to ensure accurate bolt loading and the highest safety standards for every project.

BOLT TORQUING SERVICES:

- Hydraulic, Pneumatic, & Manual Torque Equipment
- Air and Hand-operated Hydraulic Pumps
- Cleaning of bolts / replacing damaged bolts
- Torque wrench, Joint integrity, Bolt tightening methods
- Alignment of flange/gasket/bolts
- Nut Splitter

Bolt Tensioning:

Guaranteed Tight: Bolt Tensioning for Lasting Performance.

In the fast lane of bolting technology, bolt tensioning reigns supreme. This method delivers unmatched speed and precision, applying a direct load for even tension across all bolts. Our investment in cutting-edge equipment unlocks new possibilities, allowing us to tackle previously inaccessible applications. With expert guidance from our engineering and support team, you're guaranteed the right tool for every job.

BOLT TENSIONING SERVICES:

Strength in **Every Connection**

Hydro Testing:

Pressure Tested. Safety Assured.

Hydro testing stands as a cornerstone process in ensuring the structural integrity and operational safety of pipelines, vessels, and industrial equipment. At Red Dot, we employ state-of-the-art technology and meticulous procedures to conduct thorough examinations. Our high-pressure water testing method meticulously identifies any potential leaks, weak points, or structural deficiencies that could compromise safety or performance. By rigorously assessing these factors, we provide assurance that your industrial assets meet stringent quality and safety standards, ensuring their reliable and secure operation over time.

Cold Cutting:

Cutting Through Complexity, Safely and Precisely.

Cold cutting represents a sophisticated approach to dismantling pipelines, equipment, and structural components with precision and control. Red Dot's team of expert technicians harnesses specialized tools and techniques to execute cutting-edge cold cutting procedures. This method ensures the removal of materials without generating excessive heat or introducing structural weaknesses, maintaining the integrity of surrounding structures and minimizing the risk of accidents or damage. By employing cold cutting methodologies, we uphold safety standards while optimizing efficiency, thereby reducing downtime and operational disruptions for our clients.

Chemical Cleaning & Mechanical Works

Your One-Stop Shop for Industrial Cleaning and Maintenance.

Red Dot specializes in comprehensive chemical cleaning services to remove contaminants, scale, and corrosion from industrial equipment, using tailored solutions for specific needs. In addition, we provide mechanical works such as equipment repair, maintenance, installation, and machinery disassembly/reassembly. By integrating chemical cleaning with mechanical services, we ensure holistic solutions for restoring and preserving optimal equipment performance.

Chemical Cleaning Services:

- The Fill and Soak, Fill and Circulate, Slug Flow, and Cascading Cleaning Methods
- Air blowing, High-velocity water flushing, Lube oil flushing & Nitrogen purging
- Cooling water System Cleaning and Passivation using side stream filtration Storage tanks and process vessel cleaning
- Pipeline pigging/scrapping& pressure testing

Mechanical Works:

- Equipment repair and maintenance
- •Installation of new equipment
- Machinery disassembly and reassembly
